RESTAURANT ERP / BEGINNER GUIDE

Roz ka kaam, aasaan kadam.

Har module ka matlab aur use karne ka tareeka.

SAMJHO	Simple Roman Hinglish explanations
KARO	Numbered step-by-step instructions
MILAO	Examples, results aur important warnings

35 chapters | October 2026 edition | Release ce3a54f

LIVE DB, MIXED aur DEMO clearly alag. Examples training ke liye.

Real practice sirf approved test branch/account mein karein.

Aapko kya seekhna hai?

Chapter name par click karein. LIVE DB = real save; DEMO = sample; MIXED = tab-wise status.

01. Is guide ko kaise padhein **3**

02. Login, bhasha aur mobile par menu **4**

03. Kaun kis kaam ki zimmedari lega? **5**

04. Restaurant ka naam aur logo set karein **6**

05. Nayi branch banayein ya details sudharein **7**

29. Legacy Accounts - Sirf Purane Demos **31**

30. WhatsApp Settings ka sahi use **32**

31. App ke andar Guide Book aur mobile use **33**

32. Roz ka kaam: ek chhoti checklist **34**

33. Month-end: salary aur expense review **35**

34. Problem aaye to pehle kya karein? **36**

35. Chhota shabd-kosh aur yaad rakhne wali baatein **37**

01 Is guide ko kaise padhein

HELP | Pehle yeh samjhein | /guide

ERP ek digital register ki tarah hai. Module ka matlab kisi ek tarah ke kaam ki screen: jaise Inventory mein stock aur Accounts mein kharcha. Har screen ka status ek jaisa nahi hai. Is book mein har chapter par status diya hai.

Kaun use kare: Owner, manager, accountant aur staff; apne kaam ke chapters chunein.

1. **LIVE DB ka matlab**
   Entry server ke database mein save hoti hai. Real expense, employee, branch ya stock par practice karne se asli record ban sakta hai.

2. **DEMO ka matlab**
   Screen workflow sikhati hai, par numbers sample hain. Page chhodne ya reload karne par demo changes reset ho sakte hain. Inse asli bill, stock posting ya payment nahi hota.

3. **MIXED ko dhyan se padhein**
   Accounts ke Expenses aur expense-side P&L real hain; usi module ke kuch purane accounting tabs demo hain. Poore module ko ek hi status na samjhein.

4. **Har numbered kadam poora karein**
   Pehle sahi branch, phir date/month, phir fields aur Save. Expected result ko milayein. UI English mein rakhein to book ke button names seedhe milenge; Hinglish bhi chun sakte hain.

UDHARAN / EXPECTED RESULT
Training example: test branch mein Rs 5,000 Rent. Yeh example hai, apne aap koi entry nahi banata. Production mein bina business ki zaroorat practice entry na daalein.

DHYAN RAKHEIN
Real practice ke liye approved test branch/account lein. Sirf chart dikhne se uska data live ya verified nahi ho jata.

Database: Server par save hone wala record register. | **Module:** Ek tarah ke kaam ka section.

02 Login, bhasha aur mobile par menu

LIVE DB | Roz ki shuruaat | /login

Har vyakti apne login se kaam kare. Aapko wahi modules dikhte hain jinki permission hai. English default hai; Roman Hinglish aur chaar themes bhi available hain.

Kaun use kare: Jinke liye Owner ya authorized Branch Admin ne account banaya ho.

1. **ERP ka link kholein**
   Apna restaurant ERP link browser mein kholein. Existing installation mein Sign in screen aayegi; naya Owner dobara banane ki koshish na karein.

2. **Mobile aur password bharein**
   Mobile number mein sirf apne account ke 10 digits likhein, +91 nahi. Apna private password bharein aur Sign in dabayein.

3. **Bhasha aur theme chunein**
   Language se English ya Hinglish chunein. Theme mein Amber, Dark, Blue ya Emerald available hain. Preference isi browser mein yaad rehti hai.

4. **Mobile par navigation kholein**
   Chhoti screen par upar menu icon dabayein, phir module ka naam. Chaudi table ko uske andar left-right scroll karein. Owner branch selector se branch chun sakta hai.

5. **Kaam ke baad Log out**
   Shared computer par Log out dabayein. Account sharing ya password ko screenshot/chat mein bhejna avoid karein.

UDHARAN / EXPECTED RESULT
Accountant apne 10-digit mobile se login karke Accounts kholta hai. Kisi module ka na dikhna permission ka mudda ho sakta hai; theme badalne se access nahi milta.

DHYAN RAKHEIN
Wrong password ko baar-baar guess na karein. Owner se account/status ki madad lein. Grant/password update ke baad dobara login karna pad sakta hai.

Session: Is browser mein aapka signed-in access.

03 Kaun kis kaam ki zimmedari lega?

HELP | Role aur permission | /admin/users

Role job ki pehchan hai; permission kisi screen ya action ki ijazat. Sirf role ka naam dekhkar saari access assume na karein. Owner ko all-branch access hai; doosre users par apni branch aur granted permissions ki seema lagti hai.

Kaun use kare: Owner team ki zimmedari tay kare; har user apna scope samjhe.

1. **Owner ki zimmedari**
   Branches, users, restaurant branding aur provider settings sambhale. Permitted all-branch views compare kar sake; sample Dashboard ko real financial report na samjhe.
2. **Branch Admin ki zimmedari**
   Apni branch ke users aur branch details sambhale. Apne se zyada permissions nahi de sakta, khud ko edit nahi kar sakta aur Owner/HQ role nahi bana sakta.
3. **Accountant ya payroll operator**
   Zaroorat ke mutabik ACCOUNTS EXPENSES, PAYROLL aur ATTENDANCE jaise grants le. Accountant role se apne aap doosri branches ka access nahi milta.
4. **Reviewer aur employee alag rakhein**
   Leave apply karne wala aur approve karne wala alag authorized vyakti ho. Employee ke self-service leave ke liye linked employee record aur LEAVE SELF grant zaroori hain.

UDHARAN / EXPECTED RESULT
Ek branch mein accountant expenses daalta hai, supervisor attendance mark karta hai aur alag manager leave review karta hai. Yeh recommended responsibility split hai, automatic role preset nahi.

DHYAN RAKHEIN
Owner bhi apni linked leave ya khud submit ki hui leave approve nahi kar sakta. Role badalne se demo module real database feature nahi banega.

Grant: Kisi module/action ki di hui permission. | **Branch scope:** Kaunsi branch ke records dekh ya badal sakte hain.

04 Restaurant ka naam aur logo set karein

LIVE DB | Owner setup | /admin/settings/restaurant

Restaurant Settings mein saved naam aur logo poori chain, login screen aur browser tab par dikhte hain. Yeh branch-wise alag branding nahi hai.

Kaun use kare: Sirf Owner. Existing installation mein Restaurant Settings use karein.

1. **Sahi screen kholein**
   Sidebar se Restaurant Settings kholein. Fresh installation par hi Create the first owner setup hota hai; existing Owner ke liye setup dobara nahi hota.
2. **Restaurant name bharein**
   Apne business ka approved naam likhein. Pehli Owner setup mein owner ka naam, 10-digit mobile, private password aur restaurant name bhi bharna hota hai.
3. **Optional logo chunein**
   PNG, JPEG ya WebP image chunein: 1 MB aur 4 million pixels tak, bina animation. SVG allowed nahi. Preview ko dekhein.
4. **Save restaurant dabayein**
   Success message aane dein. Sidebar, login branding aur browser tab ka naam/icon update dekhne ke liye zaroorat par refresh karein.
5. **Logo hatana ho**
   Remove logo dabayein, phir Save restaurant. Sirf preview se remove karne par bina Save ke permanent change nahi hota.

UDHARAN / EXPECTED RESULT
Owner apna approved restaurant naam aur logo save karta hai. Saari branches ko wahi chain-wide identity milti hai. Is guide ne koi business naam ya logo aapki taraf se set nahi kiya.

DHYAN RAKHEIN
Sirf logo upload karna Save ka substitute nahi. Is action se stock, users ya accounting records nahi badalte.

Browser icon: Browser tab mein naam ke paas chhota logo.

05 Nayi branch banayein ya details sudharein

LIVE DB | Branch register | /admin/branches

Har outlet ka alag branch record hota hai. Code chhota unique identifier hai; Name uska readable naam hai. Nayi branch khali shuru hoti hai, doosri branch ka data copy nahi hota.

Kaun use kare: Nayi branch: Owner. Apni branch ki allowed details: Branch Admin.

1. **Branches se New Branch**
   Owner sidebar mein Branches kholkar New Branch dabaye. Branch Admin ko nayi branch banane ka option nahi milta.
2. **Code aur Name bharein**
   Unique Code mein letters, numbers, underscore ya hyphen use karein; Name mein outlet ka saaf naam. Address ko verify karke likhein.
3. **Location fields samjhein**
   Latitude aur Longitude location ke coordinates hain; Geofence radius (metres) us location ke aas-paas ki distance setting hai. Sahi values manager se confirm karein.
4. **Save aur read-back**
   Save dabayein. Success ke baad row dekhein, phir Users & Access ke branch selection mein nayi branch check karein.
5. **Existing record badalna ho**
   Permitted row ka Edit use karein, fields sudharein aur Save. Branch Admin ka branch Code locked rehta hai.

UDHARAN / EXPECTED RESULT
Sirf test branch mein code TRAIN7 aur naam Training Outlet banayein. Yeh real khali branch record hai; isse menu, stock, users ya checklists clone nahi hote.

DHYAN RAKHEIN
Clone unavailable abhi working clone wizard nahi hai. Geofence field save hone se live GPS/photo anti-cheat workflow enabled nahi ho jata. Branch delete option screen par nahi hai.

Geofence: Location ke aas-paas metres mein set ki hui boundary.

06 User banayein aur access dein

LIVE DB | Login account administration | /admin/users

User account se vyakti ERP mein sign in karta hai. Employee payroll record alag cheez hai; sirf user banane se salary record nahi banta.

Kaun use kare: Owner ya authorized Branch Admin; Branch Admin apni branch aur held grants tak.

1. **New User kholein**
   Users & Access mein New User dabayein. Name aur apne control wala sahi 10-digit Mobile number bharein; +91 na lagayein.
2. **Private password banayein**
   Kam se kam 12 characters ka naya private password set karein. Guide, chat ya shared screenshot mein password na rakhein.
3. **Role aur Branch chunein**
   Cashier, Kitchen Staff, Accountant ya Branch Manager jaise zaroorat ke role ko chunein. Branch staff ke liye sahi Branch select karein; HQ roles sirf Owner manage kare.
4. **Module grants tick karein**
   Sirf zaroorat ki permissions chunein, Status Active rakhein aur Save dabayein. Agle page ka grant reference madad karega.
5. **User se scope check karayein**
   Alag browser/session mein naye user ko login karayein. Sidebar mein permitted modules aur apni branch aani chahiye. Existing row ka Edit use karke Status Inactive bhi kar sakte hain.

UDHARAN / EXPECTED RESULT
Test cashier ko POS CASHIER aur CASH DROP permissions dekar save karein. Dono screens ka demo status fir bhi wahi rahega; access dena live billing enable nahi karta.

DHYAN RAKHEIN
Edit karke save karne par us user ke purane sessions revoke hote hain. Edit mein password blank rakhne se existing password rehta hai. Branch Admin khud ko edit nahi kar sakta.

Inactive: User account ko active access se rokne ki status setting.

07 Sahi checkbox kaunsa hai?

HELP | Permissions ka seedha reference | /admin/users

Users & Access mein Module grants ke checkboxes kaam ki ijazat dete hain. Checkbox names English uppercase mein dikhte hain; unka matlab neeche diya hai. Yeh suggested setup hai, har role ke saath automatic sab grants nahi milte.

Kaun use kare: Owner ya authorized Branch Admin jab access set kar raha ho.

1. **Stock sambhalna**
   INVENTORY se branch stock screen ka access dein. Yeh accounting expense ya salary permission nahi hai.

2. **Kharcha enter karna**
   ACCOUNTS EXPENSES se real expense list, entry aur void ka access milta hai. PAYROLL holder P&L aggregate dekh sakta hai, par expense posting ke liye alag expense grant chahiye.

3. **Salary records sambhalna**
   PAYROLL employee/rate records aur payroll preview/finalize ke liye hai. Roz ki attendance mark karne ke liye ATTENDANCE bhi alag se dein.

4. **Leave apply aur review**
   LEAVE SELF employee ki apni leave ke liye hai; uska login same-branch employee record se link ho. Alag reviewer ko LEAVE APPROVAL dein; apni/requested-by-self leave approve nahi hogi.

5. **Demo operations ke grants**
   POS CASHIER, CASH DROP, REPORTS aur MIS PERFORMANCE apni screens kholte hain. Task/purchase grants ka access bhi business need ke hisaab se dein; unki demo boundary bani rehti hai.

UDHARAN / EXPECTED RESULT
Training example: employee ko sirf LEAVE SELF, attendance marker ko ATTENDANCE aur doosre reviewer ko LEAVE APPROVAL. Har user ko apna login aur sahi branch mile.

DHYAN RAKHEIN
Branch Admin apne paas se zyada grants nahi de sakta. Sirf menu link chhupa dena security nahi; server bhi permission check karta hai.

Least access: Kaam ke liye jitni ijazat chahiye, utni hi dena.

08 Inventory mein item add karein

LIVE DB | Branch ka stock | /inventory

Inventory batati hai kis branch mein kitna material record hai aur uski minimum/maximum alert limits kya hain. Quantity aur limits har branch ke alag hain; material catalog shared ho sakta hai.

Kaun use kare: INVENTORY permission wala branch user ya Owner.

1. **Branch confirm karein**
   Owner upar selector se intended branch chune. Doosre users apni assigned branch mein kaam karte hain. All branches view ko nayi entry ka branch na samjhein.

2. **Add Item dabayein**
   Item name, Branch aur Unit bharein. kg weight, ltr liquid aur pcs pieces ke liye hai. Existing catalog name par existing material/unit reuse hoti hai.

3. **Quantity aur limits bharein**
   Opening quantity mein actual shuruaati amount, Minimum stock mein lower limit aur Maximum stock mein upper alert limit daalein. Negative quantity na bharein.

4. **Entry submit karein**
   Form ka Add Item dabayein. Save success aur refreshed stock row ka wait karein. Name, branch aur unit ko phir milayein.

5. **Reload par check karein**
   Real record reload ke baad rehta hai. Stock table mein Low stock ya Overstock flags padhein; unka example agle page par hai.

UDHARAN / EXPECTED RESULT
Test branch mein naya Training Ingredient, Unit kg, Opening quantity 9, Minimum 20, Maximum 60 daalein. Save ke baad 9 kg aur Low stock dikhega.

DHYAN RAKHEIN
Yeh real write hai. Purchase demo ka GRN is stock ko update nahi karta. Is screen par expiry batches, purchase indent ya full stock-movement workflow nahi hai; dobara Add Item ko refill shortcut na samjhein.

Opening quantity: Is stock record ki shuruaati entered quantity.

09 Low stock aur Overstock ko samjhein

LIVE DB | Inventory ko padhna | /inventory

Stock alert ek yaad-dihani hai, automatic purchase order nahi. Item ki Unit, Qty on hand aur Min / Max ko ek saath padhne se galat interpretation se bachenge.

Kaun use kare: Inventory dekhne wala staff, manager aur Owner.

1. **Unit sabse pehle dekhein**
   9 kg aur 9 pcs ek cheez nahi. Unit aur branch row ko padhkar hi quantity compare karein.
2. **Low stock ka seedha rule**
   Quantity minimum se kam ho tab Low stock. Example: 9 kg, minimum 20 kg se kam hai. Quantity exactly 20 ho to is rule se low alert nahi.
3. **Overstock ka seedha rule**
   Positive maximum se quantity zyada ho tab Overstock. Example: 65 kg, maximum 60 kg se zyada hai.
4. **Zero limit ka matlab**
   Minimum 0 par zero se neeche stock nahi hone tak low alert nahi aayega. Maximum 0 ka matlab upper alert configured nahi hai, zero stock requirement nahi.
5. **Alert ko action se alag rakhein**
   Manager ko shortage/extra stock batayein. Current Inventory screen se purchase indent auto-create nahi hoti aur Dashboard ka sample inventory value real stock valuation report nahi hai.

UDHARAN / EXPECTED RESULT
Training illustration: 9/20/60 = Low stock; 20/20/60 = low nahi; 65/20/60 = Overstock. Yeh sample math hai, apni live quantity ko is example ke hisaab se overwrite na karein.

DHYAN RAKHEIN
High value badge ko exact live monetary valuation mat samjhein. Current stock list quantity aur limits ka record hai, complete accounting valuation engine nahi.

Min / Max: Neechi aur oonchi alert limits. | **Qty on hand:** Screen par saved available quantity.

10 Staff se salary tak ka seedha raasta

LIVE DB | Pehle branch aur zimmedari samjho | /workforce

Employee, attendance, leave aur salary ka record ek jagah samjho. Yeh database mein save hote hain; practice ko disposable demo mat samjho. Employee record aur app login alag cheezein hain.

Kaun use kare: Owner ya apni branch ke zaroori grants wale staff; sirf Accountant role ka naam kaafi nahi.

1. **Branch pakki karo**
   Workforce kholo. Owner ke All branches view mein Branch se Select one branch chuno; doosre users apni branch tak seemit hain.
2. **Kaam ke hisaab se access**
   PAYROLL se Employees aur Payroll; ATTENDANCE se Daily attendance. Leave requests ke liye LEAVE_SELF, LEAVE_APPROVAL ya PAYROLL ka allowed access chahiye.
3. **Employee taiyar karo**
   ON_ROLL monthly salary hai; OFF_ROLL daily wage hai. Joining date aur rate sahi rakho; self-leave ke liye login link pehle taiyar karo.
4. **Roz ka record rakho**
   Har eligible tareekh ki attendance ya approved leave chahiye. Weekly Off ka status aur automatic holiday nahi hai.
5. **Mahina band karo**
   India time mein mahina poora hone par preview check karo, missing dates suljhao, phir confirmation ke baad final karo.

UDHARAN / EXPECTED RESULT
Sirf samjhane ka udaharan; practice sirf test branch mein: supervisor attendance bhare, employee leave bheje aur alag authorized reviewer faisla kare. PAYROLL wala vyakti baad mein salary dekhe.

DHYAN RAKHEIN
Finalize payroll se paise transfer nahi hote; final record ko baad mein badal nahi sakte.

Grant: Kisi khaas module ka kaam karne ki ijazat.

11 Naya employee aur uska rate banao

LIVE DB | Login aur employee ek nahi hain | /workforce

Salary se pehle employee ka naam, joining aur rate save karo. App login optional hai, lekin apni leave khud apply karne ke liye same-branch login link zaroori hai.

Kaun use kare: PAYROLL access wala vyakti, sirf permitted branch mein.

1. **Employees kholo**
   Workforce mein Branch pakki karke Employees kholo. Employee name mein staff ka sahi naam bharo.

2. **Type aur rate bharo**
   Employment type mein ON_ROLL · monthly salary ya OFF_ROLL · daily wage chuno. Monthly salary (INR) ya Daily wage (INR) mein positive rate bharo.

3. **Joining aur link dekho**
   Joined on (inclusive) mein pehla kaam ka din do. Linked user (optional) mein isi branch ka available login chuno; ek login ek employee se link hota hai.

4. **Save ki pushti karo**
   Create employee dabao. Saved employees mein row aur rate dekho; Reload karke dobara milao. Joining aur exit ki tareekhein dono shamil hoti hain.

5. **Baad ka badlav samjho**
   Edit / future rate se safe details badlo; Save details dabao. Naye rate ke liye New rate (INR), Effective month (future), phir Schedule rate; pehle se scheduled rate overwrite nahi hota.

UDHARAN / EXPECTED RESULT
Sirf samjhane ka udaharan; practice sirf test branch mein: Test Cook ko ON_ROLL, Rs 30,000 aur sahi joining date se banao; self-leave ke liye pehle login link aur LEAVE_SELF taiyar karo.

DHYAN RAKHEIN
Koi bhi PENDING/APPROVED/REJECTED leave history aate hi login link assign, replace ya clear nahi hoga; Owner bhi nahi kar sakta.

12 Har din ki attendance sahi bharo

LIVE DB | Khali tareekh apne aap resolve nahi hoti | /workforce

Poore din, aadhe din aur gair-haazri record karo. Present ek unit, Half-day aadha aur Absent zero unit hai; missing entry koi faisla nahi.

Kaun use kare: ATTENDANCE access wala apni permitted branch ka attendance marker.

1. **Branch aur din chuno**
   Workforce mein Daily attendance kholo. Attendance date mein aaj ya guzri hui sahi tareekh chuno; future attendance allowed nahi hai.

2. **Employee milao**
   Daily attendance ki row mein employee ka naam aur Saved status dekho. Joining se exit tak ke eligible employees hi us din dikhte hain.

3. **Status save karo**
   Select status se Present, Half-day ya Absent chuno; usi row ka Save dabao. Har employee ka status alag save hota hai.

4. **Leave ko dobara mark mat karo**
   Approved leave · read-only dikhe to Paid ya Unpaid dekho. Usi din Present bharne ki zaroorat nahi; approved leave alag se count hoti hai.

5. **Bachi tareekhein suljhao**
   Reload se saved status milao. Payroll ki Unmarked dates dekhkar har missing date ki sachchi attendance bharo ya sahi leave approval karvao.

UDHARAN / EXPECTED RESULT
Sirf samjhane ka udaharan; practice sirf test branch mein: Test Helper ne aadha din kaam kiya ho to Half-day aur Save chuno. Reload par wahi status aaye; payroll mein 0.5 worked unit milega.

DHYAN RAKHEIN
Weekly Off nahi hai. Missing ko Absent ya Present mat maano; finalized payroll ki covered dates server par locked rehti hain.

Unmarked: Us tareekh ka attendance faisla abhi save nahi hua.

13 Chhutti ki request kaise bhejein

LIVE DB | Request bhejna approval nahi hai | /workforce

Chhutti ki dates aur reason likhkar request bhejo. Submit hone par request PENDING hoti hai; salary ka paid credit sirf eligible approved leave se milta hai, request bharne se nahi.

Kaun use kare: Apni leave ke liye linked same-branch login aur LEAVE_SELF; PAYROLL ya LEAVE_APPROVAL wala allowed employees ki taraf se bhi bhej sakta hai.

1. **Apna link check karo**
   Workforce ka Leave requests kholo. Employee list khali ho to payroll manager se employee-login link check karvao; self-service mein sirf apna linked employee milta hai.
2. **Sahi employee chuno**
   Apply for leave mein Employee chuno. Kisi aur ki taraf se bhej rahe ho to pehle naam pakka karo; request submit karne wale ki pehchaan save hoti hai.
3. **Dates aur wajah bharo**
   Start date, End date (inclusive) aur Reason bharo. Aakhri din bhi chhutti mein shamil hai; dates employment ke andar honi chahiye.
4. **Request bhejo**
   Submit leave request dabao. Leave history mein PENDING dekho; Reload se saved request ki pushti karo.
5. **Alag reviewer tak pahunchao**
   LEAVE_APPROVAL wala doosra authorized vyakti faisla karega. Pending/rejected request par pay credit nahi milta; missing dates phir bhi resolve karni hongi.

UDHARAN / EXPECTED RESULT
Sirf samjhane ka udaharan; practice sirf test branch mein: linked Test Cook ek din ka reason dekar request bheje. Doosra authorized reviewer usi request ko baad mein review kare.

DHYAN RAKHEIN
Marked attendance, overlapping pending/approved leave ya finalized period wali dates reject ho sakti hain; apni request khud review nahi kar sakte.

14 Doosre vyakti ki leave review karo

LIVE DB | Approval aur paid treatment alag chuno | /workforce

Reviewer request ka faisla karta hai. ON_ROLL ki approved leave Paid ya Unpaid ho sakti hai; OFF_ROLL leave hamesha Unpaid hai.

Kaun use kare: LEAVE_APPROVAL wala allowed reviewer ya Owner; na linked employee aur na request submitter khud review kar sakta hai.

1. **Pending request dhoondo**
   Workforce mein Leave requests aur Leave history kholo. Branch, employee, dates, Reason aur PENDING status ek saath padho.

2. **Apni pehchaan milao**
   Cannot review own leave dikhe to ruk jao. Yeh rok Owner par bhi hai, aur kisi aur ke liye khud submit ki hui request par bhi.

3. **Decision chuno**
   Review request dabao. Decision mein Approve ya Reject chuno. Review details unavailable ho to pehle Reload karo.

4. **Pay treatment saaf rakho**
   Approve par Leave pay treatment zaroor chuno: Paid · on-roll only ya Unpaid. OFF_ROLL mein paid choice allowed nahi hai. Review note mein zaroori baat likho.

5. **Faisla save karke milao**
   Confirm decision dabao. Reload ke baad APPROVED/REJECTED aur pay treatment dekho. Approved dates attendance mein read-only hongi, dobara attendance mat bharo.

UDHARAN / EXPECTED RESULT
Sirf samjhane ka udaharan; practice sirf test branch mein: Test Cook ki request doosra authorized manager Approve aur Paid · on-roll only se confirm kare; salary preview mein eligible paid din aaye.

DHYAN RAKHEIN
Faisla sirf PENDING request par hota hai; finalized month ya attendance conflict ko approval se bypass nahi kar sakte.

Unpaid: Chhutti approved ho sakti hai, lekin us din ka pay credit nahi milta.

15 Salary preview dekho, phir final karo

LIVE DB | Final ka matlab locked record, payment nahi | /workforce

Har branch ke mahine ki salary pehle preview mein check karo. ON_ROLL mein actual 28/29/30/31 calendar days ka denominator hai; OFF_ROLL mein daily wage ko worked units se guna karte hain.

Kaun use kare: PAYROLL access wala authorized vyakti; har baar ek branch ka record.

1. **Completed month lo**
   Workforce mein Branch aur Payroll kholo. Payroll month chuno; India time mein mahina khatam hue bina finalization nahi hoti.

2. **Preview ke columns padho**
   Calendar days, Present / half-days, Paid leave / unpaid days, Pay units aur Amount / status milao. DRAFT · preview only, not posted abhi salary expense nahi hai.

3. **Saari missing dates niptao**
   Unmarked dates kholo. Har eligible date par attendance ya approved leave chahiye; Weekly Off assume mat karo. Sirf approved paid ON_ROLL leave paid units deti hai.

4. **Dobara check karo**
   Reload preview dabao. Rate, employment dates, employee-wise amount aur Total milao; galti ho to final karne se pehle suljhao.

5. **Confirmation ke baad finalize**
   Branch, month aur amounts wali confirmation checkbox padho aur tick karo; Finalize payroll dabao. Reload ke baad FINAL · immutable snapshot ki pushti karo.

UDHARAN / EXPECTED RESULT
Sirf samjhane ka udaharan; practice sirf test branch mein: completed September ka clean preview finalize karke FINAL dekho; dobara finalize karne se wahi saved record milta hai, duplicate salary nahi.

DHYAN RAKHEIN
Final payroll immutable hai. Bank transfer, statutory deductions, tax, PF/ESI ya overtime calculation is basic flow ka hissa nahi hain.

16 Do employees ki salary samjho

LIVE DB | Monthly salary aur daily wage ka farq | /workforce

Completed 30-din wale September ka sirf samjhane ka udaharan; practice sirf test branch mein. Dono poora mahina employed hain; har eligible date resolve karo.

Kaun use kare: PAYROLL se employee/preview, ATTENDANCE se marks; A ke linked login par LEAVE_SELF aur alag reviewer par LEAVE_APPROVAL chahiye.

1. **Do test employees banao**
   Employees mein A ko ON_ROLL Rs 30,000 monthly, B ko OFF_ROLL Rs 800 daily rakho. Dono ki joining September 1 ho; finalized purane period mein backdate mat karo.

2. **A ke din taiyar karo**
   A ke 29 din Present mark karo. Bacha ek din A leave apply kare; na A aur na submitter, balki alag authorized reviewer paid approve kare.

3. **A ka hisaab padho**
   Rs 30,000 / 30 x (29 Present + 1 approved paid leave) = Rs 30,000. Pending/rejected ya unpaid leave paid credit nahi deti.

4. **B ke din poore karo**
   20 Present aur ek Half-day mark karo. Baaki 9 eligible din Absent ya approved unpaid leave se cover karo; OFF_ROLL ko paid leave nahi milti.

5. **B aur total milao**
   Rs 800 x (20 + 0.5) = Rs 16,400. Reload preview par dono ka Total Rs 46,400 ho; missing dates zero hone par hi final karo.

UDHARAN / EXPECTED RESULT
FINAL par Rs 46,400 labor cost hogi; yeh bank payment receipt nahi hai.

DHYAN RAKHEIN
Har mahine 30 se divide mat karo: actual 28/29/30/31 din lo. Weekly Off ya unresolved dates chhodkar finalization nahi hogi.

17 Asli branch kharcha save karo

LIVE DB | Bill reference ke saath database entry | /accounts

Rent, Utilities, Marketing aur Other operating kharche record karo. Expenses real database flow hai; Accounts ke Other accounts · Demo ko isi tarah live mat samjho.

Kaun use kare: ACCOUNTS_EXPENSES access wala authorized accountant ya Owner; non-Owner sirf apni branch mein.

1. **Sahi scope lo**
   Accounts kholo. Branch aur Month pakka karo, phir Expenses kholo. Owner ko All branches se ek branch chunni hoti hai.

2. **Date aur category bharo**
   Post expense mein Date selected month ke andar rakho. Category mein Rent, Utilities, Marketing ya Other chuno; Subcategory zaroorat par bharo.

3. **Bill ki pehchaan do**
   Amount (INR) positive bharo. Description mein saaf vivaran aur Reference mein bill ya pehchaan do; dono required hain, Subcategory optional hai.

4. **Save aur readback karo**
   Save expense dabao. Saved expenses mein date, amount, description/reference aur POSTED status milao; Reload se saved row aur category total dobara dekho.

5. **Galti ka sahi raasta lo**
   Posted entry edit nahi hoti. Confirmed galat row par Void, phir Void reason aur Confirm void use karo; original audit record rahega, Void undo nahi hota.

UDHARAN / EXPECTED RESULT
Sirf samjhane ka udaharan; practice sirf test branch mein: Rent Rs 5,000, Description mein Test branch rent aur Reference mein TEST-RENT-01 do. Save ke baad Rent total mein Rs 5,000 judta hai.

DHYAN RAKHEIN
Salary ko Other ya kisi category mein dobara mat daalo; FINAL payroll labor cost alag se aati hai. Uncertain save par nayi duplicate entry mat banao.

18 Expense save ka jawab na aaye to kya karein

LIVE DB | Uncertain ka matlab fail maan lena nahi | /accounts

Network error par expense save hua bhi ho sakta hai. App original expense aur retry key usi tab ke session mein rakhta hai; same request ka retry duplicate nahi banata.

Kaun use kare: Wahi signed-in authorized user, wahi branch aur month, wahi browser tab/session.

1. **Error par ruk jao**
   Saving ya error ke baad naya expense mat banao. Outcome unresolved message padho; bina jawab request ko failed mat maano.
2. **Saved row dhoondo**
   Saved expenses ka Reload dabao. Date, category, amount, Description aur Reference milao; success message na aana duplicate ka reason nahi.
3. **Wahi payload rakho**
   Retained fields locked ho sakte hain. Amount ki spelling, spaces ya reference mat badlo; original payload aur key bilkul same rakho.
4. **Same retry istemal karo**
   App ka Retry same expense dabao. Matching saved response milne par pending attempt clear hota hai; phir Saved expenses ko reload karke row aur total milao.
5. **Storage error ko bypass mat karo**
   Recovery storage unavailable ya damaged ho to posting blocked rahegi. Tab/session bachao aur administrator se madad lo; browser data clear karke nayi entry mat bhejo.

UDHARAN / EXPECTED RESULT
Sirf samjhane ka udaharan; practice sirf test branch mein: Rs 5,000 rent ka reply na aaye to wahi retained Retry same expense use karo; nayi rent entry nahi.

DHYAN RAKHEIN
Unresolved expense ke dauraan tab band, session badal, browser data clear ya new-entry duplicate mat karo; pehle original outcome suljhao.

Retry key: App ki wahi request pehchanne wali chaabi; user ko nayi nahi banani.

19 Profit & Loss mein abhi kya sach mein milta hai

MIXED | Operating costs hain, poora profit nahi | /accounts

Profit & Loss tab naam hone par bhi abhi expense-side report hai. Real POSTED expenses aur FINAL payroll snapshots milte hain; sales aur food-cost connection ke bina net profit nahi nikalta.

Kaun use kare: ACCOUNTS_EXPENSES ya PAYROLL access wala authorized vyakti; detailed expense records ke liye ACCOUNTS_EXPENSES alag chahiye.

1. **Branch aur month milao**
   Accounts mein ek Branch aur Month chuno, phir Profit & Loss kholo. Har comparison mein wahi branch aur mahina rakho.
2. **Kharchon ki rows padho**
   Rent, Utilities, Marketing aur Other mein saved POSTED expenses judte hain. Expense ki date se month tay hota hai; VOID entry totals se bahar rehti hai.
3. **Labor ko alag samjho**
   Labor · finalized payroll only mein sirf final salary snapshots aati hain. DRAFT payroll preview is amount mein nahi aata; salary manually dobara expense mat banao.
4. **Operating total dekho**
   Total operating expenses category kharchon aur final labor ka jod hai. Is number ko sales, cash balance ya net profit ka naam mat do.
5. **Unavailable ko zero mat samjho**
   Revenue, Cost of goods sold, Gross profit aur Net profit par Not connected ka matlab data connected nahi hai; inhein zero ya estimated profit na likho.

UDHARAN / EXPECTED RESULT
Sirf samjhane ka udaharan; practice sirf test branch mein: sirf Rent Rs 5,000 aur FINAL labor Rs 46,400 ho to operating total Rs 51,400 hai; net profit phir bhi unavailable hai.

DHYAN RAKHEIN
Other accounts · Demo aur sample dashboard sales ko real expenses ke saath jodkar profit mat banao; poora Accounts live accounting suite nahi hai.

COGS: Bik chuke maal ki lagat; yahan abhi connected nahi hai.

20 Owner Dashboard - Numbers Samjho

DEMO | Sample overview, asli business report nahi | /dashboard

Sales, inventory value, overdue tasks aur branch comparison ka screen samajhne ke liye. Yahan numbers sample hain; Inventory ka alag page real database use karta hai, lekin uska live stock yahan nahi aata.

Kaun use kare: Owner aur dashboard access wale managers, training ke liye.

1. **Compiled view dekho**
   Branch selector mein All branches (compiled) chuno. Total Sales - Today aur Total Inventory Value cards padho.
2. **Ek branch samjho**
   Connaught Place chuno aur cards aur Branch detail table compare karo. Yeh demo display filter hai, database isolation ka proof nahi.
3. **Charts alag padho**
   Revenue trend - last 14 days aur Order channel split dekho. In sample charts ko branch-specific live report mat samjho.
4. **Alerts samjho**
   Overdue Tasks, Avg. Prime Cost % aur Pilferage watch padho. Sample flag kisi real chori ya cash shortage ka saboot nahi.

UDHARAN / EXPECTED RESULT
Practice: compiled view aur ek branch ka Revenue Today dekho; phir wapas compiled view kholo. Sirf screen comparison hua, koi sale ya stock entry nahi bani.

DHYAN RAKHEIN
Yeh read-only sample dashboard hai; real records create nahi karta. Page dobara kholne par sample view hi milta hai. Isse profit, stock purchase ya employee action decide mat karo.

KPI: Key Performance Indicator: kaam ki haalat batane wala mukhya number. | **MTD:** Month to date: mahine ki shuruaat se ab tak.

21 Reports - Sample Data Padho Aur Nikalo

DEMO | Charts aur CSV ki practice | /reports

Reports ke cards se sample sales, staff score, food cost, stock variance aur cash/payout reports kholna seekho. Data live purchases, sales ya saved cash closing se nahi aata.

Kaun use kare: Owner, manager aur report access wale staff.

1. **Report card kholo**
   Reports mein Sales Trend, MIS Scorecard ya Food Cost & Menu Margin jaise card par click karo.
2. **Sample table samjho**
   Food Cost & Menu Margin mein Menu Item, Selling Price, BOM Cost, Food Cost % aur Margin saath padho.
3. **Baaki reports pehchano**
   Inventory Variance, Cash Reconciliation aur Swiggy/Zomato Reconciliation bhi sample reports hain. Inki shortage ya payout values real settlement nahi.
4. **File download karo**
   Report detail ka Export CSV dabao. Downloaded sample rows Excel ya kisi spreadsheet app mein kholkar report se milao; har report mein table hona zaroori nahi.

UDHARAN / EXPECTED RESULT
Practice: Food Cost & Menu Margin kholo, kisi dish ki price aur ingredient cost padho, phir Export CSV se sample rows download karo. Asli menu price mat badlo.

DHYAN RAKHEIN
Export actual CSV download hai, XLSX workbook nahi. Koi real financial record create nahi hota; reload se live transactions nahi judte. Downloaded file device par rahegi, par uske numbers sample hi hain.

CSV: Comma-Separated Values: rows aur columns wali simple text file. | **BOM Cost:** Dish ke ingredients ki dikhayi gayi sample lagat.

22 MIS Leaderboard - Ranking Ka Matlab

DEMO | Sample score, salary calculation nahi | /performance

Team Performance - MIS Leaderboard mein sample staff ranking, task counts aur score chart padho. Yeh asli staff ka live assessment ya attendance/payroll result nahi hai.

Kaun use kare: Owner aur performance access wale managers, screen samajhne ke liye.

1. **Rank se shuru karo**
   Table mein Rank, Name, Role aur Branch dekho. Rows sample MIS Score ke hisaab se upar se neeche lagi hain.

2. **Teen counts saath padho**
   On Time matlab samay par hua, Delay matlab der se hua, Not Done matlab nahi hua. Sirf score dekhkar faisla mat karo.

3. **Chart samjho**
   Score by person chart ko table se milao. Screen task/delegation/variance/cashier ke 40/30/20/10 weights dikhati hai; live calculation connected nahi.

4. **Sample export lo**
   Export CSV dabao aur downloaded ranking spreadsheet mein kholo. Name aur counts ko screen ki sample rows se compare karo.

UDHARAN / EXPECTED RESULT
Practice: Rahul Sharma ki sample row aur doosri row compare karo. On Time, Delay aur Not Done note karo; phir CSV mein unhi logon ko dhoondo. Isse ranking padhna seekhoge.

DHYAN RAKHEIN
Numbers sample hain; real employee records ya salary nahi badalte. Reload par sample leaderboard hi aata hai. Is demo se salary cut, bonus, warning ya attendance decision mat lo.

MIS: Management Information System: management ko kaam ka summary dikhane ka tareeka. | **CSV:** Spreadsheet mein khulne wali simple rows ki file; XLSX nahi.

23 Recurring / Checklist - Baar-Baar Ka Kaam

DEMO | Checklist banana aur Done karna seekho | /tasks

Roz ya chuni hui frequency par hone wale kaam ka demo banao. Yeh page sirf temporary task row dikhata hai; automatic future tasks banana abhi connected nahi.

Kaun use kare: Task access wale manager aur kaam karne wale staff, training ke liye.

1. **Form kholo**
   New Recurring / Checklist dabao. Task / checklist title mein kaam ka seedha naam likho, jaise Fridge temperature check.
2. **Zimmedari bharo**
   Branch aur Assigned to (Doer) bharo. Yeh naam text inputs hain; likhne se kisi real user ko notification nahi jaata.
3. **Timing chuno**
   Frequency aur Shift time set karo, phir Create dabao. Required title, branch aur doer ke bina button enabled nahi hota.
4. **Row check karo**
   Recurring / Checklist tab mein Task, Doer, Frequency, Due aur Status padho. Nayi demo row PENDING hoti hai.
5. **Done try karo**
   Mark Done kholo. Evidence attachment optional hai; chaaho to non-sensitive sample file chuno, phir Mark Done dabao.

UDHARAN / EXPECTED RESULT
Practice: Fridge temperature check ko apni practice branch aur doer ke naam se banao. Timing set karke Create karo, phir bina attachment Mark Done try karo.

DHYAN RAKHEIN
Page-local changes reload par reset hote hain; real task/schedule save nahi hota. Recurrence, reminders aur uploads connected nahi. Selected evidence ka sirf filename temporary rehta hai, file store nahi hoti.

Recurring: Niyamit interval par dobara hone wala kaam. | **Doer:** Jis vyakti ko kaam karna hai.

24 Delegation - Ek Baar Ka Kaam Saunpo

DEMO | One-time task mein evidence zaroori | /tasks

Ek particular kaam kisi ko saunpane aur evidence ke saath Done karne ka flow seekho. Is demo se real employee assignment, message ya reminder nahi banta.

Kaun use kare: Task access wale managers aur doers, practice ke liye.

1. **Delegate Task kholo**
   Task title, Branch aur Assign to bharo. Ye teen fields khaali hon to Delegate button nahi chalega.
2. **Priority aur Due likho**
   Priority mein HIGH, MEDIUM ya LOW chuno. Due mein saaf deadline text likho; date picker ya automatic reminder assume mat karo.
3. **Task banao**
   Delegate dabao, phir Delegation - One-Time tab kholo. Nayi row ki Priority, Due aur PENDING Status check karo.
4. **Evidence rule dekho**
   Nayi row par Mark Done dabao. Evidence attachment (required) ke bina completion blocked rahega.
5. **Demo complete karo**
   Choose a photo/PDF... se non-sensitive sample file select karo aur Mark Done dabao. Row mein filename aur DONE status dikhega.

UDHARAN / EXPECTED RESULT
Practice: Clean fridge title, practice branch, Rahul Sharma naam, HIGH priority aur Due mein Tomorrow 18:00 likho. Pehle bina attachment completion block dekho, phir sample image select karke Done karo.

DHYAN RAKHEIN
Sirf filename page state mein rehta hai; attachment upload/store nahi hoti. Task aur DONE changes reload par reset; real records, WhatsApp message ya reminders create nahi hote.

Delegation: Kaam kisi doosre vyakti ko saunpna. | **Evidence:** Kaam hone ka proof; is demo mein keval selected file ka naam.

25 Indent Se Purchase - Request Aur Approval

DEMO | Temporary request aur purchase flow | /purchase

Samaan ki maang, approval aur purchase entry ka demo seekho. Indent approve karna apne-aap purchase create nahi karta; New Purchase ka form alag bharna hota hai.

Kaun use kare: Purchase access wale staff aur managers.

1. **Request banao**
   Raise Indent kholo. Branch, Raised by aur Number of line items bharo, phir Raise dabao. Individual item/quantity builder yahan nahi hai.

2. **Approval try karo**
   Indents tab mein DRAFT row ka Submit for Approval dabao. PENDING APPROVAL hone par Approve ya Reject try karo.

3. **Purchase alag banao**
   New Purchase mein Branch, Vendor, Raw material / Indent reference aur Amount (Rs) bharo. Reference text hai, automatic indent linking nahi.

4. **General option samjho**
   General purchase checkbox non-store item ke liye hai; tab Item description bharo. Is demo option mein indent ki zaroorat nahi.

5. **Buy step dekho**
   Create (Step 1: Buy) dabao. Purchase Orders tab mein nayi row, Amount aur 1. Bought badge dekho.

UDHARAN / EXPECTED RESULT
Practice: apni practice branch mein ek line ki indent raise karo, submit aur approve karo. Phir New Purchase se Practice Vendor aur Chicken reference ki alag sample entry banao.

DHYAN RAKHEIN
Sab changes page-local hain aur reload par reset. Real PO, purchase ya notification nahi banta. Approval ko vendor order bhejna ya actual paisa kharch hona mat samjho.

Indent: Samaan mangwane ki andar ki request. | **PO:** Purchase Order: vendor se kharid ka order; yahan demo row.

26 Purchase Receive Aur GRN Quality Check

DEMO | Demo result, stock posting nahi | /purchase

Purchase receive hone aur material ki quality check karne ka screen flow samjho. PASS, PARTIAL aur FAIL sirf demo row badalte hain; real Inventory alag database-backed module hai.

Kaun use kare: Purchase access wale receiving staff aur quality checker.

1. **PO dhoondo**
   Purchase Orders tab mein kisi aisi row ko dekho jisme Mark Material Received button abhi available ho.
2. **Optional bill samjho**
   Upload Bill (optional) dabane se bill step complete mark hota hai. Current UI mein file chooser nahi; bill file upload ya store nahi hoti.
3. **Receipt try karo**
   Mark Material Received dabao. Temporary GRN row banti hai; GRN / Quality tab mein uska PO Number aur Branch milao.
4. **Quality result chuno**
   Pending row ka Quality Check kholo. PASS, PARTIAL ya FAIL chuno. PARTIAL/FAIL par displayed unit mein positive Fail quantity bharo.
5. **Submit aur padho**
   Submit dabao. Quality Result aur Fail Qty dekho. Refund message illustration hai, vendor claim nahi.

UDHARAN / EXPECTED RESULT
Practice: ek demo PO receive karo. Uski GRN par PARTIAL chuno, displayed kg unit mein 2 bharo aur Submit karo. Quality row badlegi, live stock nahi.

DHYAN RAKHEIN
Reload par page-local PO/GRN changes reset. Koi real receipt, Inventory stock change, vendor return ya Accounts refund post nahi hota, chahe screen description aage ka intended flow bataye.

GRN: Goods Receipt Note: samaan receive hone ka record; yahan sample. | **PARTIAL:** Kuch material theek, kuch failed.

27 POS / Cashier - Sample Order Entry

DEMO | Order header, real bill nahi | /pos

Dine-in, takeaway aur delivery channel ka sample order header banana seekho. Dish-wise items, tax invoice aur payment collection is page mein implemented nahi hain.

Kaun use kare: POS access wale cashiers aur managers.

1. **New Order kholo**
   New Order dabao aur Branch bharo. Yeh text field hai; naam likhne se real branch mein order post nahi hota.
2. **Channel chuno**
   Channel mein Dine-in, Takeaway, Swiggy ya Zomato chuno. Table no. relevant ho to T-12 jaisa reference bharo.
3. **Amount aur Tender bharo**
   Amount (Rs) mein practice amount bharo. Tender mein Cash, UPI ya Card chuno. Selection payment ko verify ya collect nahi karta.
4. **Row banao**
   Create Order dabao. Branch aur Amount khaali hon to button disabled hai.
5. **Table milao**
   Nayi row ka Order #, Branch, Channel, Table, Amount, Tender aur Status padho. COMPLETED badge real paid bill ka saboot nahi.

UDHARAN / EXPECTED RESULT
Practice: Connaught Place, Dine-in, T-12, Amount 1840 aur Tender UPI chuno. Create Order ke baad sample row mein yahi details dekho; koi QR payment ya receipt generate nahi hoti.

DHYAN RAKHEIN
Order page-local demo hai aur reload par reset. Real bill, sales record, invoice ya payment receipt save nahi hoti; paisa collect nahi hota. Customer ko is screen ko final bill mat do.

POS: Point of Sale: counter par order/billing ka system. | **UPI:** Unified Payments Interface: bank se digital payment ka tareeka; yahan sirf label.

28 Blind Cash Drop - Notes Aur Coins Gino

DEMO | Counted total ki practice, closing nahi | /cash-drop

Shift cash ki denomination-wise ginti aur total dekhna seekho. Blind ka matlab expected cash dekhkar ginti adjust nahi karna; current demo expected cash laata hi nahi.

Kaun use kare: Cash Drop access wale cashiers aur managers.

1. **Notes alag gino**
   Rs 500 notes, Rs 200 notes, Rs 100 notes, Rs 50 notes, Rs 20 notes aur Rs 10 notes ke boxes mein notes ki ginti bharo.
2. **Value nahi, count**
   Rs 500 ke 10 notes hon to us field mein 10 likho, 5000 nahi. Har denomination ki ginti dobara milao.
3. **Coins ki value bharo**
   Coins (Rs) mein saare coins ka total rupaya bharo; coins ki sankhya nahi. Baaki unused fields zero rehne do.
4. **Total check karo**
   Counted total dekho. Galat ho to note counts aur coins ki value sahi karo; yeh sirf aapki entered cash ginti jodta hai.
5. **Result dekho**
   Submit Cash Drop dabao. Result mein Submitted - ke saath counted amount dikhta hai, verified shift closing nahi.

UDHARAN / EXPECTED RESULT
Practice: Rs 500 ke 10 notes, Rs 200 ke 5, Rs 100 ke 5 aur Coins (Rs) mein 50 bharo; baaki zero rakho. Total check karke Submit Cash Drop dabao.

DHYAN RAKHEIN
Reload par local counts/result reset; real closing record save nahi hota. Expected-cash fetch, shortage/excess aur variance computation connected nahi. Submitted ko cash handover approval mat samjho.

Denomination: Note ki value, jaise Rs 500 ya Rs 100. | **Variance:** Expected aur gini hui cash ka farq; yahan calculate nahi hota.

29 Legacy Accounts - Sirf Purane Demos

DEMO | Petty Cash, Recon aur Balance Sheet demo | /accounts

Other accounts · Demo ke sample tabs samjho. Sirf legacy tabs demo hain; alag Expenses aur Profit & Loss ko disposable demo mat samjho.

Kaun use kare: Petty cash ya aggregator permissions wale users; tabs access ke hisaab se dikhte hain.

1. **Demo area pehchano**
   Other accounts · Demo kholo. Legacy demonstrations ka sample-data notice padho; yahaan ka data database se connected nahi.
2. **Petty Cash try karo**
   Available ho to Petty Cash Entry kholo. Branch, Type, Amount (Rs) aur Description bharo. OUT (expense) ya IN (top-up / refund) chuno.
3. **Local row dekho**
   Log Entry dabao aur Petty Cash Book · Demo mein Amount aur Balance After padho. Is balance ko actual cash book mat maano.
4. **Recon samjho**
   Aggregator Recon · Demo mein Order Value, Commission aur Net Payout dekho. Yeh bank se matched ya real settled payouts nahi.
5. **Balance Sheet padho**
   Balance Sheet · Demo mein Assets, Liabilities aur Equity sample totals dekho. Yeh real financial position ya audit statement nahi.

UDHARAN / EXPECTED RESULT
Practice: demo Petty Cash Entry mein practice branch, OUT, Amount 100 aur Description Cleaning sample bharo. Log Entry ke baad sirf nayi demo row dekho.

DHYAN RAKHEIN
Reload par page-local entries reset. Koi real expense, refund, payroll ya ledger record create/change nahi hota. Asli expense practice ke liye alag live form mat bharo.

Petty Cash: Chhote rozmarra kharch ke liye rakha cash. | **Recon:** Reconciliation: do records ko aapas mein milana; yahan sample view.

30 WhatsApp Settings ka sahi use

LIVE DB | Provider configuration | /admin/settings/whatsapp

Yeh screen ChatXFlow ki configuration save karti hai. Token save karna aur automatic WhatsApp reminders chalna do alag cheezein hain. Current task reminders, approval buttons, inbound webhook aur 8AM summary workflows pending hain.

Kaun use kare: Sirf Owner; apna valid ChatXFlow account aur authorized business number chahiye.

1. **Provider par number connect karein**
   Apne ChatXFlow account mein uska QR flow use karke authorized WhatsApp number connect karein. ERP par imaginary token na bharein.
2. **WhatsApp Settings kholein**
   ERP mein Owner se WhatsApp Settings kholein. API Token field mein actual Developer API Token privately paste karein.
3. **Phone aur Base URL verify karein**
   WhatsApp Phone Number mein apna connected number country code ke saath provider format mein bharein. Base URL ko approved chatxflow.online address par hi rakhein; custom host allowed nahi.
4. **Save Settings dabayein**
   Saved status ka wait karein. Reload par saved configuration check karein; token masked dikhna normal hai.
5. **Existing token sambhalein**
   Baad mein phone/settings edit karte waqt API Token blank chhodne se existing token retain hota hai. Token sirf update karna ho tab naya valid token dein.

UDHARAN / EXPECTED RESULT
Owner provider settings save karta hai aur reload par configuration rehti hai. Isse storage verify hoti hai, kisi customer ko message deliver hone ka proof nahi milta.

DHYAN RAKHEIN
Token/password kabhi presentation, PDF, chat ya screenshot mein share na karein. Save Settings se test message, task reminder ya 8AM report apne aap send nahi hoti.

API Token: Provider access ki private digital key.

31 App ke andar Guide Book aur mobile use

HELP | Help hamesha paas | /guide

In-app Guide Book aapki permissions ke mutabik module cards dikhati hai. Yeh PDF sab modules samjhati hai; aapke login mein unmein se sirf allowed modules dikhna normal hai.

Kaun use kare: Har signed-in user. Help kholne ke liye extra business grant nahi chahiye.

1. **Guide Book kholein**
   Sidebar ka Guide Book ya header ka Guide link dabayein. Mobile par pehle Open menu icon se sidebar drawer kholein.
2. **Apne module ka card chunein**
   Card ke status ko dekhein, phir use kholein. Explanation, how-to aur practical scenario ko padhein.
3. **Language set karein**
   Roman Hinglish chahiye to Language selector se Hinglish chunein. Exact English labels milane ke liye English mode rakh sakte hain.
4. **Mobile table aur form use karein**
   Wide table ke andar sideways scroll karein. Long dialog mein neeche scroll karke action button tak jaayein. Menu se module chunne par drawer band hota hai.
5. **Book aur permission ka farq yaad rakhein**
   Is PDF mein chapter padhne se us module ki permission nahi milti. Module missing ho to Owner se role/branch/grant check karayein.

UDHARAN / EXPECTED RESULT
Leave-only user ke Guide Book mein allowed help aur leave-related access dikhega; payroll salary records usko milna zaroori nahi. Yeh intentional permission boundary hai.

DHYAN RAKHEIN
Browser ki language/theme preference account data nahi hai. Doosre browser/phone par preference alag ho sakti hai. Guide example automatically records create nahi karta.

Drawer: Mobile par side se khulne wala menu.

32 Roz ka kaam: ek chhoti checklist

HELP | Operational routine | /guide

Yeh recommended human routine hai, automatic scheduler nahi. Apni company ki responsibility aur approvals ke saath use karein. Staff record, expense aur attendance ka discipline payroll ko aasaan banata hai.

Kaun use kare: Branch manager, attendance marker, accountant aur employee apne-apne access ke saath.

1. **Login aur scope check**
   Apne account se login karke branch aur date dekhein. Wrong branch ya shared Owner login se routine kaam na karein.
2. **Attendance update**
   Authorized marker eligible past/current date ke employees ko Present, Half Day ya Absent mark kare. Approved leave wale din dobara attendance na daale.
3. **Leave requests handle**
   Employee zaroorat par dates/reason ke saath apply kare. Alag authorized reviewer pending requests review kare; PAID/UNPAID decision ko samjhe.
4. **Actual expenses enter**
   Accountant sahi date, branch, amount, category aur reference ke saath real kharcha enter kare. Save ke baad record aur month total milaye.
5. **Stock aur day-end review**
   Inventory alerts manager ko batayein. Dashboard, POS aur Cash Drop demo ko actual sales ya real shift closure ka proof na maanein. Shared device par Log out karein.

UDHARAN / EXPECTED RESULT
Aaj staff ka Half Day attendance update hua aur electricity expense bill reference ke saath save hua. Is routine ne apne aap order, purchase ya bank payment create nahi kiya.

DHYAN RAKHEIN
Yeh checklist app ke Tasks demo mein automatic real recurring job nahi banati. Real records ke liye authorized screens aur business approval use karein.

Reference: Bill number ya kharche ko pehchanne wali detail.

33 Month-end: salary aur expense review

HELP | Closing ki sahi sequence | /workforce

Payroll finalize irreversible hai. Pehle month aur eligible dates check karein, phir attendance/leave complete karein, tab salary snapshot finalize karein. Iske baad salary cost Accounts P&L mein ek baar aati hai.

Kaun use kare: PAYROLL operator aur independent leave reviewer; accountant expenses review kare.

1. **Completed month aur branch chunein**
   Payroll ke liye ek specific branch aur completed calendar month lein. Current adhure ya future month ko finalize nahi kar sakte.

2. **Employee details milayein**
   Joining/exit dates, ON_ROLL/OFF_ROLL aur applicable rate verify karein. Join aur exit dono dates eligibility mein count ho sakti hain.

3. **Missing dates saaf karein**
   Attendance aur approved leave ke through har eligible date cover karein. Pending/rejected leave ko paid coverage na samjhein. Kisi missing date ko chupkar paid mat maanein.

4. **Preview se final tak**
   Amounts aur total ko operator/manager milakar dekhein. Sirf sab theek hone par final confirmation dein. Final snapshot dobara edit nahi hota; repeat finalize duplicate salary nahi banata.

5. **Accounts ka month milayein**
   Usi branch/month ke P&L mein finalized labor cost aur posted expenses review karein. Salary ko dobara Other expense mein enter na karein; revenue/COGS ke bina net profit available nahi.

UDHARAN / EXPECTED RESULT
Training September: monthly employee Rs 30,000 aur daily-wage employee Rs 16,400 = payroll total Rs 46,400. Yeh sample calculation hai; finalize ko bank payment na samjhein.

DHYAN RAKHEIN
Galat finalized payroll ko edit/delete karke sudharne ka supported flow nahi. Finalize se pehle har detail confirm karein; is tool mein tax/PF/ESI/overtime/bank transfer calculation nahi hai.

Snapshot: Finalize ke samay locked salary record.

34 Problem aaye to pehle kya karein?

HELP | Simple troubleshooting | /guide

Har error ka matlab data delete hona nahi. Error text, selected branch, date/month aur last action ko note karke sahi madad lein. Bina confirmation repeated writes duplicate kharcha karwa sakte hain.

Kaun use kare: Har user; permission/configuration ke liye Owner ki madad lein.

1. **Module nahi dikh raha**
   Owner se account ka role, assigned branch aur required grant check karayein. Updated access ke baad dobara login karein. Direct URL se permission bypass nahi hoti.
2. **Payroll Finalize disabled hai**
   Specific branch, completed month, employee availability aur missingDates check karein. Approved leave aur marked attendance ka overlap, joining/exit dates bhi verify karein.
3. **Leave approve nahi ho rahi**
   Kya aap linked employee ya request submitter hain? Tab doosra reviewer chahiye. Pending/approved overlap, attendance conflict ya finalized period bhi request rok sakta hai.
4. **Expense Save ke baad network error**
   Outcome unknown ho sakta hai. Original tab/session aur pending form rakhein; on-screen recovery instructions follow karein. Nayi duplicate entry ya storage clear na karein; exact uncertainty flow wale chapter ko padhein.
5. **Demo entry gayab ho gayi**
   Page chhodne/reload par demo changes reset hona expected hai. Logo error par file format/size check karein. Session verify error par dikh raha Retry use karein, baar-baar business action submit na karein.

UDHARAN / EXPECTED RESULT
Manager ko employee ka login link badalte waqt error milta hai. Agar koi bhi leave history hai to link intentionally locked hai; user ko unlink karke approval bypass na karein.

DHYAN RAKHEIN
Screenshot bhejne se pehle passwords, tokens, phone numbers aur personal/salary details cover karein. Error solve karne ke liye kisi ko apna password na dein.

Outcome unknown: Server ne entry save ki ya nahi, abhi confirm nahi.

35 Chhota shabd-kosh aur yaad rakhne wali baatein

HELP | Jargon ke bina ERP | /guide

Yeh short reference technical shabdon ko roz ki bhasha mein samjhata hai. Detailed use ke liye sambandhit chapter par wapas jaayein. Button labels English mein isliye rakhe hain taaki screen par dhoondhna aasaan ho.

Kaun use kare: Naya user, trainer ya process samjhane wala manager.

1. **Branch, module aur grant**
   Branch = outlet. Module = ek kaam ka section. Grant = us section/action ki permission. Compiled = allowed branches ko ek saath dekhna; har screen par live totals available hona zaroori nahi.

2. **Attendance aur pay units**
   Present = 1 worked unit; Half Day = 0.5; Absent = 0. ON_ROLL monthly salary wala employee, OFF_ROLL daily-wage employee. Weekly Off ka automatic paid status nahi hai.

3. **Leave aur payroll status**
   Pending = review baaki; Approved = accept; Rejected = reject. PAID/UNPAID pay treatment hai. Preview draft calculation; Final locked snapshot hai, bank transfer nahi.

4. **Finance aur purchase terms**
   P&L = income/kharcha ka statement, abhi expense-side real. COGS = bike maal ki cost, abhi connected nahi. PO = purchase order; GRN = material receive/quality ka record. Current purchase flow demo hai.

5. **Reports aur record terms**
   KPI = key business indicator. MIS = management information summary. CSV = spreadsheet mein khulne wali text file, XLSX nahi. Void = reason ke saath entry ko totals se hataana, history delete nahi. API Token = private provider key.

UDHARAN / EXPECTED RESULT
User bole 'Preview sahi hai, ab paisa transfer ho gaya?' Jawab: nahi. Finalize bhi sirf salary snapshot record karega; actual payment company ke alag process se hoga.

DHYAN RAKHEIN
Sample numbers ko live result, demo status ko production transaction, aur settings saved ko automation enabled mat samjhein. Actual company policy aur statutory obligations is basic tool se alag confirm karein.
